

Strawinsky & Hindemith PIANO Magdalena Müllerperth	ARS 38257	PC: 01S
	1 SACD-Hybrid 2017	

Magdalena Müllerperth (*1992) is one of the most engaging talents of her generation. She impresses her listeners with her original programmes, which often include unknown and rarely performed works. Here she plays piano works by two of the most important representatives of Classical Modernism, including Paul Hindemith's extremely rarely heard reconstructed Sonata Op. 17.
